

Now That's Good News!

Mr. & Mrs. Smithers from Peyia, were kind enough to share their good news with us recently.

They had put their property on the market to sell. They then met Paula from the UniSeal marketing team who suggested they have their property re-painted.

The Surveyor from UniSeal came along on the duly appointed day and explained all the superb qualities of the Exterior Coating with its long lasting guarantee, so it would help the property be more appealing and create more interest to buyers, as several other homes had been completed in the area.

Mr. & Mrs. Smithers decided to go ahead with the installation and since having the work completed, they were so pleased with the professional no-mess workmanship and the 'New Look' to the property, so much so, they have fallen back in love with their home and taken it **OFF THE MARKET.**

So the Smithers' family have sent a big **THANK YOU** to UniSeal and all the team.
